**Dear Hiring Committee,**

As an active artist and educator I have the experience, skills and qualifications that you require for a visual arts teaching position with your team. I am an innovative, self-motivated and caring professional who is highly dedicated to the learning, achievement and potential of each student.

I am an OCAD University graduate with a variety of traditional and digital media art expertise, and a passion for creative education. I am also very enthusiastic about 21<sup>st</sup> century learning and look for every opportunity to incorporate technology into the art classroom as a valuable learning tool. I believe it is essential to differentiate instruction and address different learning styles through collaborative, character building, creative and critical thinking tasks.

The teachers' education program, at Ottawa University, focused heavily on creating safe and inclusive classrooms, developing co-constructed triangulated assessments, and using technology to engage a new generation of learners. Through my education experiences, I have also become very enthusiastic about the potential of cross-curricular connections within the visual arts curriculum.

I would like to thank you in advance for your consideration and look forward to the opportunity to meet with you in person.

Sincerely,

Renee Isaac
